

SAFETY MANAGEMENT FOR GOOGLE APPS

Google Apps for Education WITH GAGGLE SAFETY MANAGEMENT

Implement
Google Apps for Education
with built-in access to
Gaggle safety features.

Benefits:

- + Student safety features, including the Gaggle Anti-Pornography Scanner and Blocked Words List.
- + Expert Student Safety Representatives review filtered content 24/7 and apply consistent, district-approved policies.
- + Removes the need for educators to review questionable communications so that they can concentrate on classroom instruction.
- + One-year Gmail and document archiving with options for additional years.
- + Personal customer service via phone, live chat or email.

CIPA Compliant

U.S.-EU Safe Harbor Framework Self-Compliance

“The real power of the integration is the filtering and monitoring of everything going into Google Drive. I don't think any school district should implement Google without at least considering the benefit and compliance that Gaggle adds to those tools.”

Jim Culbert

*Executive Director of Information Technology
Duval County Public Schools*

SAFETY & SECURITY

Promote student engagement while encouraging the sharing of diverse ideas and perspectives with these safety and security features.

Gaggle Safety Management

Discover inappropriate words and images in student email, text messages, discussion boards, email attachments and computer files. Detect potential issues early and intervene positively.

Anti-Pornography Scanner (APS)

Ensure CIPA compliance with proprietary, real-time image analysis that prevents pornography from reaching students. The APS looks at embedded and attached images as well as images in Gmail, Google Docs, Sheets and Presentations, linked websites and more.

Content Filtering

Messages, text documents and even email attachments are scanned for inappropriate words to ensure that content is appropriate and safe.

Gaggle complies with all U.S. privacy and safety laws, particularly those involving children, including:

- + Children's Internet Protection Act (CIPA)
- + Children's Online Privacy Protection Act (COPPA)
- + Family Educational Rights and Privacy Act (FERPA)
- + Health Insurance Portability and Accountability Act (HIPAA)
- + Self-certification compliance with the U.S.-EU Safe Harbor Framework

“

Our students are aware of Gaggle and they are very careful with what they say. They understand that Gaggle is part of their school day, and even at home.”

Ruben Montoya
Instructional Technologist
Alhambra Elementary School District
